EDUCATION

Degree	Specialization	Institute	Year	CGPA
B.Tech	CSE (AI & ML)	R.V.R & J.C COLLEGE	2022-2026	8.55
Intermediate	Physics, Chemistry, & Mathematics	Sri Aryabhata College	2020-2022	-
SSC	-	Z.P.H.S	2019-2020	10.0

TECHNICAL SKILLS

- **Languages & CS Fundamentals:** Python, Java, SQL , DSA, DBMS, Cloud Computing
- **AI/ML & Libraries:** Generative AI(GEN AI), AI/ML/DL, NLP, TensorFlow, Keras, LangChain
- **Frontend & Backend:** Html, CSS, Javascript, React.js, MERN Stack, FastAPI, SpringBoot
- **Database & Cloud:** MongoDB, Mysql, AWS
- **Tools/Platforms:** Jupiter Notebook, VS Code, IntelliJ IDEA, GitHub, Postman, Vercel, Render

WORK EXPERIENCE

- **Artificial Intelligence Intern** [SkillDzire] May-Jul 2024
 - Developed a **RAG-BASED CHATBOT, AI CONTENT WRITER** Using **LANGCHAIN, FAISS (Vector Search) & LLMs**. Enhanced responses with **Prompt Engineering** and **fine-tuning**
 - Acquired hands-on experience in deploying **Full Stack** projects on **Render (backend) & Vercel (frontend) & AWS** platforms.
- **Full Stack Development Intern** [Cognifyz] Apr-May 2025
 - Successfully Completed **Full Stack Development** internship, gaining end-to-end experience in **building and deploying** applications
 - Build **AI-POWERED APPLICATION** integrated AI features using **OPENAI APIs** designed user-friendly, responsive interfaces using **MERN Stack**.

PROJECTS

- **RAG-BASED CHATBOT** [Python, GEN AI, LLM, LangChain, OpenAI] May-jul 2024
 - **Retrieval-Augmented Generation (RAG)** combines information retrieval with **Generative AI** for more accurate responses. Retrieves relevant data using **Vector search and Embeddings** from a Knowledge base.
 - Enhances **LLM-generated responses** by integrating real-time, factual information. Reduces **hallucinations and improves** response accuracy.
- **AI POWERED MERN STACK APPLICATION** [React.js, Node.js, MongoDB, Express] Apr-May 2025
 - Developed a **full-stack AI-powered web application** using the **MERN stack**, integrated **React, Node.js, Express and MongoDB**, for a responsive user interface and backend management.
 - Integrated **Deepseek R1** with **Groq API** to enable ultra-fast AI inference for chatbot and content generation capabilities, with secure **API handling and dynamic frontend** interaction.
- **AI CONTENT WRITER** [AI, REACT.JS, NODE.JS, LLM, Render, Vercel] Jul-Aug 2024
 - Engineered an AI-driven **Content Writer** leveraging **gemini-api key** to produce high-quality, SEO-optimized content. Designed an intuitive multi-step workflow for keyword analysis, title generation, topic selection, and article creation.
 - Crafted a sleek, responsive frontend with **React.js** for enhanced user experience. Seamlessly deployed the solution using **Vercel (frontend) and Render (backend)** for efficient, scalable performance.

COURSES CERTIFICATIONS

- **PYTHON:** Skill India Development
- **GENERATIVE AI (GEN AI):** Udemy
- **AI/ML/DL:** Infosys
- **HTML,CSS,REACT.JS:** Udemy
